Small and large clubs alike – efficient international contacts and ability to receive offers

Secure & Verified Platform Access

1

Biometric verification

Biometric checks for all users

2

ID verification

Dual layer security with passport and ID checks

3

Confidential Transactions

Modern encryption for secure negotiations

4

E-Signatures & Document Verification

E-signatures streamline contracts on the platform

5

Secure Storage & Archiving

Transactions and contracts securely stored

Seamless Switching

Professional & Youth Areas

1

Switch Function for Sports Directors

Easily switch between professional and youth areas

2

Separate Platforms with Identical Structure

Professional and youth areas share the same structure – create tenders and manage talent seamlessly

3

Academy communication

Direct communication between academies and youth departments

4

Youth Tenders & Pitches

Create youth-focused tenders for transfers and staff recruitment

Future Innovations for Platform Development

1. Integration of Women's Soccer

Complete integration for women's teams – manage tenders and pitches with the same functionality as other sectors

2. Character Tests for Trainers (Implemented)

Character tests for trainers – evaluate working style and personality to find the right coaching fit

3. Future Character Tests for Youth Players

Character assessments for youth players – support physical and mental development of key players

GoalImpact: Data-Driven Player Selection

1. What is GoalImpact?

Measures player's impact on team performance – supports informed selection decisions

2. How GoalImpact Works

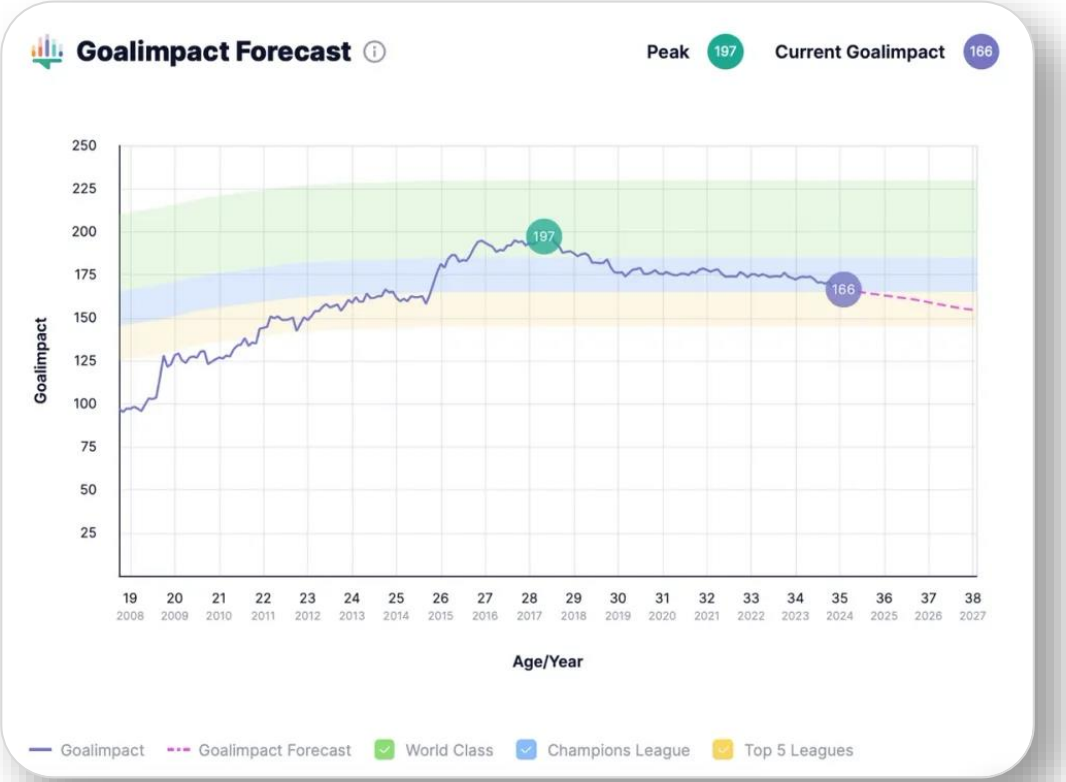
Comprehensive match data analysis – includes goals, pre-assists, substitutions, playing time, and more

3. Platform Exclusive Feature

Pitches with GoalImpact reports only – clubs can activate GoalImpact reports **on-demand** for independent analysis

4. Platform Integration

Direct GoalImpact integration – access data for player evaluation and **on-demand** decision-making



1

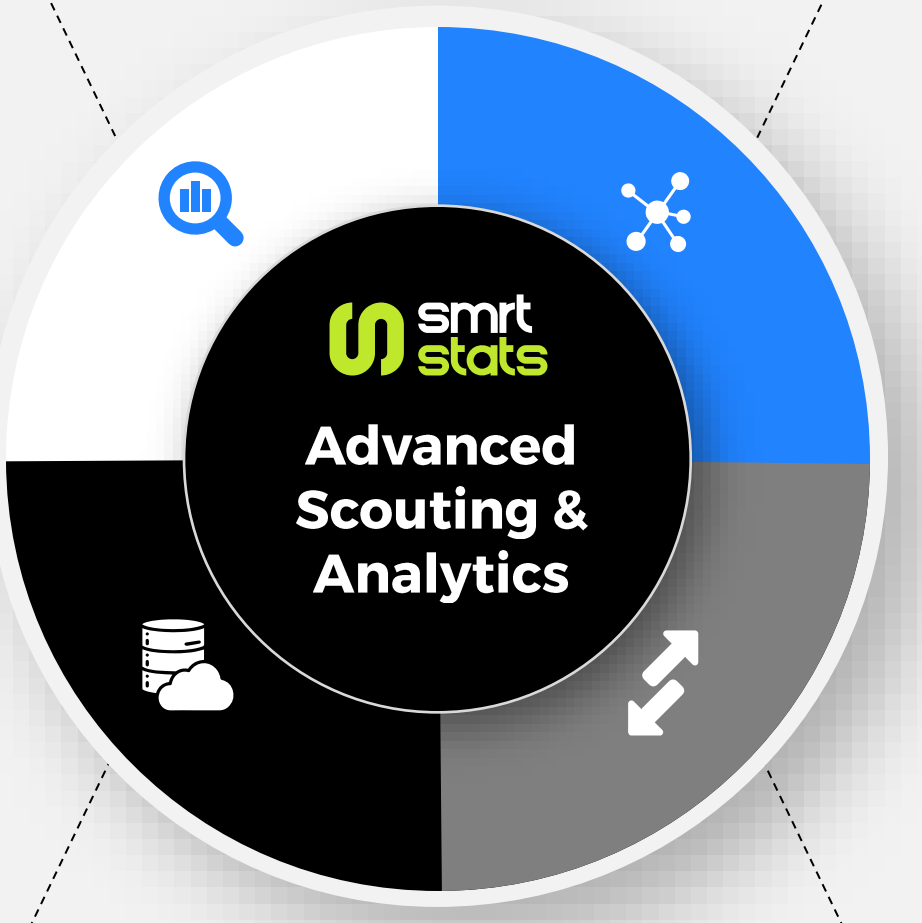
What is Smrtstats?

Data on 19,000 clubs, 400,000+ players, and 50,000 videos – global coverage in 184 countries

2

Integration with our platform

Seamless access with the Deeperlook function – retrieve Smrtstats reports directly from player and club profiles



Scouting Data On-Demand

Detailed stats on player performance – access historical data and current comparisons on technical, tactical, and physical metrics

4
